SPEAKER PROFILE

Barry Rowe MSIA has been employed with Woolworths in SA for over 23 years. He has been a Safety Professional with Woolworths in SA for in excess of 20 years. 15 years in the Supermarkets SA Division and is currently the SHE Manager in Adelaide Regional Distribution Centre. He has provided Management OH&S Development, Employee Training, Inspections for compliance and innovative safety solutions.

PRESENTATION DETAILS

This session has been designed to give you some background information on the safety issue that was identified with the Dock Levellers in our Temperature Controlled Distribution Centre.

How much potential is there for the solution to have a broader application across the industry?

Woolworths has installed the Safety barriers to the Loading Docks in all of their Temperature Controlled Distribution Centres in Australia.

This system would have a significant impact on the reduction of risks on sites with similar loading docks.

Woolworths confirm their commitment to sharing this hazard control.

**Seminar sponsored
by Wilson People
Management**

PRESENTATION SUMMARY

- Overview of the ARDC
- Presentation on the Implementation of the Safety Barrier System in the Ante-Room of the Temperature Controlled Distribution Centre
- **Viewing of the Temperature Controlled Distribution Centre, (400m round trip. Covered in shoes are required for the Distribution Centre).**
