FOR THE LAUNCH OF THE

KONEKT MARKET REPORT VOL 3

WHERE WE WILL UNVEIL THIS EXCITING NEW REPORT, PROVIDE UPDATED WORKPLACE HEALTH AND INJURY MANAGEMENT TREND DATA, AND DISCUSS MENTAL HEALTH ISSUES IN THE WORKPLACE.

The Konekt Market Report is the most comprehensive review of return to work (RTW) cases in Australia. The third volume outlines seven years of rehabilitation outcomes, analysing more than 130,000 referrals. It provides comprehensive analysis of all the factors influencing positive and negative outcomes, including delay to referral, gender, age, industry, organisation size, nature of injury and jurisdiction.

This year the spotlight is on work-related mental health conditions and their increasing prevalence in the workplace. Work-related psychological injuries and mental health conditions cost the Australian community more than \$14 billion a year.

It's an important issue and the report specifically looks at:

- The cost of mental health conditions
- Benefits of creating a mentally healthy workplace
- Key actions for creating a mentally healthy workplace
- Risk factors
- Managing mental health issues in the workplace
- Achieving best outcomes for mental health compensation claims

PLEASE JOIN US FOR LUNCH

Where the report will be unveiled and the findings discussed. Our guest presenter, clinical and organisational psychologist Dr Peter Cotton, will discuss the management of mental health conditions in the workplace. This will be followed by a panel discussion by a number of employers and experts who will talk about their experiences of creating mentally healthy workplaces.

ABOUT GUEST SPEAKERS

Dr Peter Cotton FAPS

Dr Peter Cotton is a clinical and organisational psychologist, Private Practice and InsightSRC; Workplace Mental Health Advisor with SuperFriend and Comcare Centre of Excellence in Mental Health and Wellbeing at Work; and member, Beyondblue Expert Advisory Group on Mental Health at Work.

Peter has consulted with most Australian workers compensation authorities on the management and prevention of work-related psychological injuries. He held an appointment with the former National Occupational Safety and Health Commission as a subject matter expert in workplace mental health, and is currently involved with a number of jurisdictional prevention and clinical quality assurance initiatives.
