LIFE BEYOND PAIN

## Spine surgery in the US – the good, the bad and the ugly:

### Australia heading down the same path?

Health costs are spiralling in Australia and remain ever topical.

Are market-driven forces governing health outcomes?

Join us for an evening of revelation and analysis on

US health spending and how Australia may be trending in a similar direction.

What can we learn to continue meeting patient needs and expectations?

How can we develop the good, limit the bad and avoid the ugly?
